The Gifteds–Learning Enablers

Learning through Mastery; Mastery through Creativity

A few of 37+ symptoms

How problem looks like

Academic performance not matching the potential

Reading / Writing few lines may seem herculean task; Child avoids or shows no interest in reading or writing; Prefers to listen instead

Illegible handwriting

Cursive writing is simply not possible

Confusion over letter identity and alphabetical order

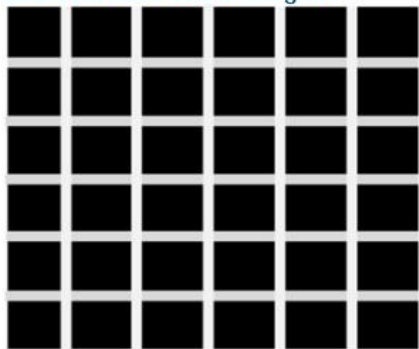

Numbers are not friends

Confusion in sense of direction (left/ right)

Maintaining attention or focus is challenge

Low threshold for confusion; emotional response

How you get help

- ❖ Not the problem but 'root' of the problem is resolved.
- ❖ Customised one-on one intensive program specific to client's goals & needs.
- ❖ A drug free program
- ❖ Not phonics based, no rote memorization; can be provided in any language.
- ❖ Creativity based fun filled holistic approach; cannot be described but experienced through the program
- ❖ Enables the individual from within to conquer the problem and explore the strength
- ❖ Strict code & uniform standards followed by dedicated and trained facilitators world-wide.

"My son had difficulty in reading, writing & spellings. While reading he used to guess the word rather than read. He now has the tools to which he can relate very easily to help him overcome his difficulties.

A big difference; he is now able to differentiate between 'b' & 'd', he now makes an effort to read rather than guessing and his writing has become so good; beyond my imagination."

"Not only me as a parent observed the difference in him, his remedial teacher has same opinion.

The best part of the program is that it directly deals with the problem. I strongly recommend this program to all those children who have similar difficulty."
